

Heritage 2017 Napa Valley

Cabernet Sauvignon Rutherford - 0.75L

SHORT DESCRIPTION

Deep, ruby red color. Noble nose with intense aromas of black currants, plums, cedar, roasted coffee and the typical 'Dusty' character specific to Rutherford. Exceptionally velvety tannins and a perfectly balanced structure reveal themselves in the mouth, where impressions of vanilla and fine herbs unfold. The final seems to continue to infinitely long and refined finish. Cabernet at an unprecedented level!

Climate:

Napa has a Mediterranean climate with warm, dry summers and relatively mild winters with regular rainfall. In Rutherford the vineyards are cooled by a regular sea breeze, which means that the growth and flowering take longer and the quality here is usually higher.

Soil:

Rutherford is the historic heart of Napa and features a sand and loam surface that includes varying volcanic sediments and marine limescale. That makes it one of the most mineral Cabernets from Napa with its typical 'Dusty' character and enormously refined tanins.

Vinification:

100% Cabernet Sauvignon. Hand picked and bunch selected for each bunch. Fermentation in large wooden casks on original Bordeaux yeasts. After malolactic fermentation, the wine continues to rest on its lies for 18 months in small French oak barriques. (100% of which 75% new)

HERITANCE

The Taub family is a big name in California on the scene of wine and spirits. Their history goes back to the end of the prohibition in the twenties. As one of the first in America, they received the personal permission of President Roosevelt to produce and distribute alcoholic beverages. Meanwhile, we are 3 generations further but still the Taubs are one of the references in California, even for the entire US. Heritage is the most important family vineyard and one of the benchmark wineries of Napa Valley, America's most renowned wine region. Their impressive counter to the absolute top of our European quality wines. Heritage is actually a combination of "Heritage" and "Inheritance", pointing to the start of a new tradition and its sustainable continuation. The wines are made after the example of the greatest Bordeaux and leave the true wine lover with absolute silence!
